K-STORAGE

BOOT RACK

K-STORAGE is designed for shoe storage.
You can easily optimise storage space
Adjusting shelves without tools

**Main features :**

· Reinforced shelves and anti-tip system

Shelves are reinforced. One person can climb on the shelves to take shoes from the top of the rack, the anti-tip system secures the action.

· Adjustment without tools

The shelves can be adjusted without tool. They are placed on the racks which are simply hooked onto the uprights. Your stock being scalable, you can easily move the shelves and add or remove some.

· Use Rental & Sales

The K-STORAGE can be used to store your ski boots for sale. In this case, the front can be fitted with a grooved black painted steel panel to display your boots or any other product.
