

# K-SKIEXT

## UNIVERSAL OUTDOORS SKI SUPPORT

Placed at the entrance of a shop, a restaurant or any other facility, K-SKIEXT allows your customers to leave their equipment and freely move about your premises.

A stainless steel tray can be available to collect water when the rack is used indoors, in a skiroom for instance.

### Main features :

- Suitable for all ski types and snowboards
- Easy storage and handling (no lifting needed)
- Self supporting single-sided model (2 positions back brackets)
- Supplied with 2 adjustable crosspieces (adults / children)
- Available in 3 lengths

Displayed model :  
K-SKIEXT-100  
With stainless steel tray

The crosspieces can be sold alone, with wall spacers and Evosystem hooks  
Available lengths: 100-120-150-170-200-250
